

INTOUCH[®]

ECO FRIENDLY

★★★★ PREMIUM COLLECTION ★★★★★

A WORD FROM OUR CEO

Over the past 27 years I have been blessed with the privilege of working with some outstanding brands in the mobile accessories industry. During this time I have learned so much about what is important in a brand or product, from the values of the brand to how it is positioned, but most importantly what a brand's vision is for the future.

This is when I got thinking, there was not enough planning for the future put into the brands I so loved. I wanted more...I wanted innovative, high quality products that are well priced, that did not harm the environment.

This is where INTOUCH was born. I

wanted a brand that had the future in mind, a future for our children and their children. A plastic free future.

When we first put our pens to the drawing board, we wanted to go the ECO-Friendly route. After some sums were done, we realised that sadly, it was not feasible for us to break into the market with the ECO range. We needed to launch our brand and let the world know about us first!

MEANWHILE... we have been working hard to get our range of ECO-Friendly packaging out there and are proud to announce, we have finally done so! Our packaging is made from 100%

recycled materials and are working towards a plastic free brand. We would like to thank you for your support and your commitment in making the INTOUCH brand what it is today, especially during this hard time. We know that...Together we CAN make a difference!

Our vision is to provide innovative, forward thinking products for everyday life. We strive to extend this forward thinking to the whole planet with our eco packaging. We want our children, and their children, to experience the same thrills of discovering nature and pushing their limits. We hope that other brands follow in these footsteps.

Stefano Brachini

ABOUT US

In our busy everyday lives, communication is vital to KEEP IN TOUCH with news, weather, business and most importantly family and friends.

The INTOUCH brand of accessories helps us achieve this by powering and protecting our devices and connecting us to the world.

The Brand comes from the expression

TO KEEP IN TOUCH

INTOUCH is about connection among people, creating a link between individuals.

In closing, INTOUCH is about

KEEPING IN TOUCH WITH TECHNOLOGY

ECO-FRIENDLY PACKAGING

Going Green has been a much awaited venture for us here at **INTOUCH!**

When we first put our pens to the drawing board, we wanted to go the **ECO-Friendly** route. After careful consideration, we realised that sadly, it was not feasible for us to break into the market with the **ECO range**.

We needed to launch our brand and let the world know about us first!

MEANWHILE... we have been working hard to get our range of **ECO-Friendly packaging** out there and are proud to announce, we have finally done so!

We would like to thank you for your support and your commitment in making the **INTOUCH** brand what it is today, especially during this hard time. **We know that...Together we CAN make a difference!**

WHY INTOUCH PREMIUM?

THE INTOUCH DIFFERENCE

We are proud to announce the release of our new **Premium Collection**. INTOUCH Premium is a **high-quality** and **high-performance** range of **Power delivery** charging solutions.

Over the past couple of years, **INTOUCH** has become one of the **fastest growing** brands, delivering power, protection, productivity, connectivity, audio, security and home automation solutions.

We've made these strides through rigorous design and engineering, maintaining the **highest quality** standards in our manufacturing processes, working to achieve and maintain high customer satisfaction.

By performing rigid compliance testing throughout the design and manufacturing process, Intouch stays at the cutting edge of quality control and manufacturing.

WHAT IS POWER DELIVERY?

FAST, FASTER, FASTEST CHARGING

- USB-C Power Delivery is a fast-charging technology, supported by certain iOS/Apple and Android/Google/Samsung devices, that delivers much higher levels of power than standard charging.
- USB-C pd uses cutting edge usb-c technology.
- USB-C connectors have been designed together with USB-C Power Delivery, to handle these new high levels of power. USB-C circuit boards are specially designed to carry this increased wattage without being damaged or overheating, for enhanced safety to users and their devices.

HIGHER QUALITY STANDARDS

We know you rely on our products, and we take this responsibility with great care. Our Vigorous Testing ensures we deliver matchless reliable quality that you can genuinely count on.

HOW DO POWER DELIVERY CHARGERS WORK

- The usb-c power delivery chipset delivers the exact power required
- Whether it's a small phone or a large laptop, the USB-C PD charger detects the connected device to deliver the right amount of power to charge that device as fast as possible. This ensures fast charging without delivering too much power which could damage the internal circuitry.

FOR USB-C POWER DELIVERY, YOU NEED

DEVICE

A USB-C PD-enabled smartphone or tablet

CABLE

A USB-C charge cable

CHARGER

A USB-C PD-enabled wall or car charger

SUPER FAST CHARGING

USB-C PD can charge your device up to 70% faster than standard 5W charging*.

This means less time plugged in while your smartphone reaches 100% charged.

When you're looking for an urgent battery boost, a quick 10-minute charge with

USB-C PD might be all you need.

WHY CHOOSE THE INTOUCH PREMIUM

POWERBANK?

- Charges 3 devices in one go!
- Charge multiple devices simultaneously with 20 W Power Delivery Type-C port & dual USB ports. INTOUCH PD delivers fast charging to connected devices, without sharing or decreasing power. You no longer must choose between using your smartwatch or phone, or anything else you need.

CHARGERS?

- The INTOUCH Travel and Car charger has Dual TYPE C ports that allow you to super fast charge two devices simultaneously.
- It is like having two super fast chargers in once compact Charging Block.
- This offers more value for money with the latest cutting-edge technology.

CABLES?

- This unique TYPE 2 TO 2 TYPE C out allows you to fast charge two devices simultaneously.
- It is finished in high quality aluminum, and it is braided to prevent damage to the cable.
